

## **HOMEWOOD CONSULTING ENVIRONMENTAL POLICY**

Homewood Consulting Pty Ltd is committed to managing its responsibilities in providing products and services do not negatively impact the environment; that contribute to the environmental pillar of sustainability and enhance its environmental performance.

The Homewood Management System documents the processes, policies and procedures to ensure environmental objectives are achieved throughout all of our operations. The Management System is has been prepared in accordance with the relevant ISO Environmental Management System Standard, and the requirements of relevant environmental legislation and includes a commitment to continually improve the effectiveness of the System.

This includes:

- A commitment to the protection of the environment, including prevention of pollution
- Working with suppliers, customers, the community and Governments as appropriate in order to reduce waste production and ensuring sustainable use of resources
- Providing staff training in environmental management and practices
- Identifying, monitoring and reviewing the requirements of the interested parties

This policy will be reviewed annually by management in consultation with employees and/ or their representatives. Management expects the cooperation of all employees in realising our environmental objectives, in complying with all relevant environmental legislation and in creating an environmentally responsible workplace.
